

Board of Registered Nursing (BRN)

The California Board of Registered Nursing (BRN) is a state governmental agency established by law to protect the public by regulating the practice of registered nurses. The BRN is responsible for implementation and enforcement of the Nursing Practice Act: the laws related to nursing education, licensure, practice, and discipline. The Nursing Practice Act created a nine-member Board which serves as the BRN decision-making body.

BRN CONTINUING EDUCATION PROGRAM

Since July 1, 1978, California registered nurses have been required to document continued competency by completing a minimum of 30 contact hours every two years in subjects relevant to the practice of nursing. Courses must be taken from providers approved by the BRN or other entities recognized by the Board.
